## Looking to Create a Beautiful Home?

Building a luxury home and choosing the right products and the right vendors is a major project. At Span Floors, we've helped many homeowners like you achieve this dream. Here are some of the beautiful realisations of our products.

## SUSTAINABILITY

---

We know that you care for the planet just as much as we do. We offer engineered flooring that is made of wood exclusively from certified forestry operations.

## UNFADING QUALITY

---

Experience timeless elegance with our wooden flooring—unfading quality that stands the test of time, transforming your space with enduring beauty.

## HEALTH

---

We take care to source our finished floors only from reliable manufacturers who have the necessary certifications in this regard.

## At a Glance

With 23 years of experience, Span Floors has created a name for itself in the minds of discerning homeowners, renowned architects, interior designers, and developers.

Our projects range from luxury farmhouses and villas to regal penthouses. We take pride in bringing you world-class wood flooring, facades and decking options from all across the world.

## The Word on the Street...

—— “ ——

Span has installed the floors in our apartment at the Camellias. The quality of the product and the service is both outstanding. Nisha is personally involved in the project at every step. The process was painless and the end result a joyful experience.

Due to COVID delays, our project was delayed by a couple of months. Consequently the floors collected grime and dust and were looking shabby. Span stepped in and handed over bright, shining floors in a matter of a day.

We would personally recommend SPAN for the product and for the service.

S.A

A close-up photograph of a wooden floor with a herringbone pattern, showing the natural grain and texture of the wood. The lighting is warm, highlighting the different shades of brown in the wood.

# ENGINEERED FLOORING

An ideal choice for high-end homes, engineered wood floors are real wood floors without the drawbacks of warping, cracks, or unsightly gaps.

## The Word on the Street...

—— “ ——

When the final product came out, it was like the best decision I could have ever made for this house.

Mr. Akshay Verma Verma Jewellers

## Advantages of Span Engineered Floors

Span-engineered floors have many advantages. These floors come in many different formats and colours. They provide superlative stability as compared to solid wood floors. Furthermore, they can be renewed, unlike laminate floors. Explore our engineered wood flooring collection to have your breath taken away by their timeless excellence.

# LAMINATE FLOORING

Get the look of real wood flooring at less than half the cost. Laminate floors are extremely durable and easy to maintain, making them a great choice for busy homes with pets or kids.

“

Had a wonderful experience with Span Floors. We recently had our house built and got the wooden flooring and facade wood from Span Floors. We were really impressed by the product range, staff, product quality and the services we got by the team. Our whole experience was very smooth and would definitely recommend their services.

B.G  
HOMEOWNER

## **Advantages of Span Laminate Floors**

Not only do Span laminate floors look and feel very close to real wood floors, but they're also very practical, For example, in a young child's room, or maybe a guest room, or even a rental accommodation.

# FACADES, DECKING, & PERGOLAS

Real wood provides unparalleled warmth, richness, and a natural feel to any building's face. Our wood facade claddings, louvers, screens, & decking are suitable for high-end homes & buildings where long-lasting beauty, low maintenance, water & termite resistance, and sustainability are prerequisites.

And more

## Words from the Founder

Today, fortunately, with growing awareness about the impact of harmful chemicals, a lot of low-impact products are available on the market. The question is, are we searching for them?

Satinder Chawla,  
Founder and Managing Director

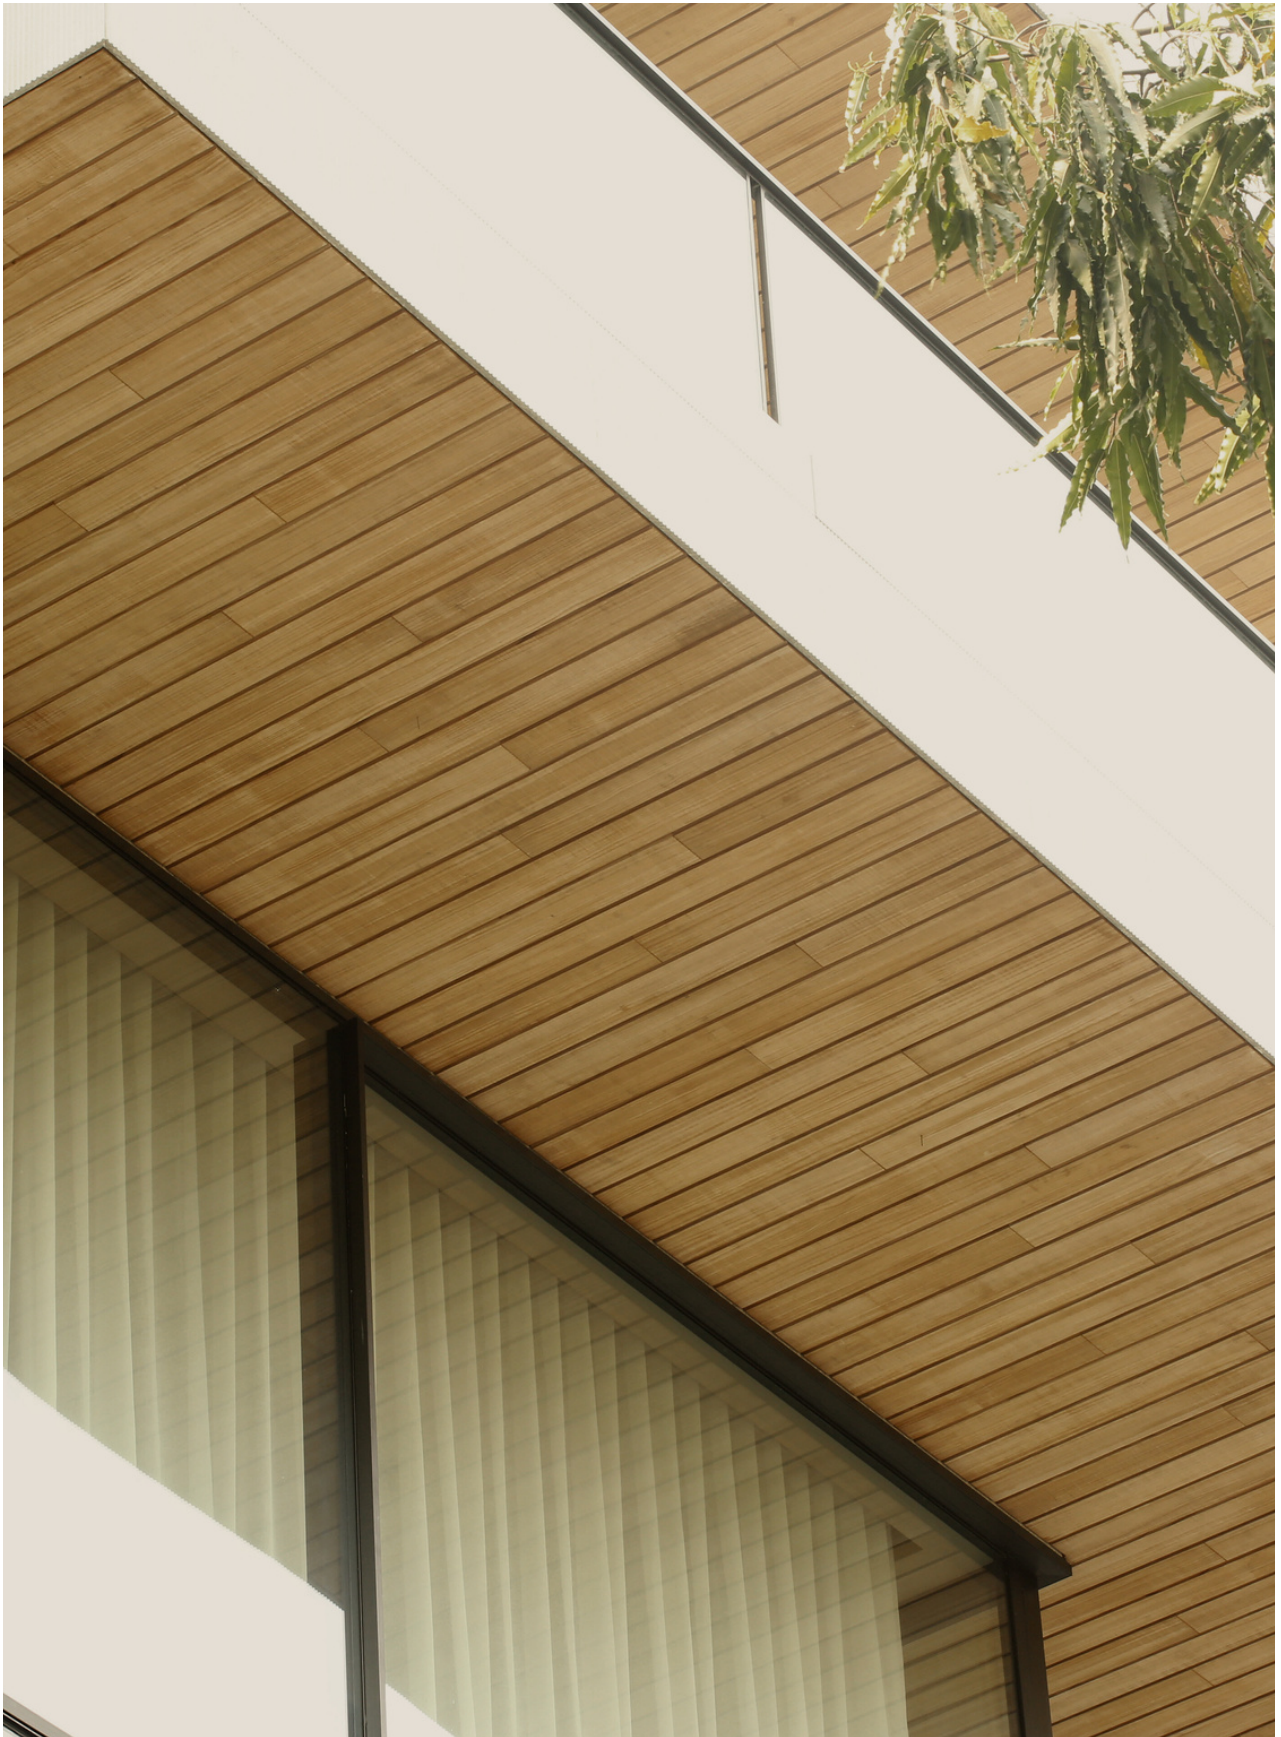

## **Words we Live by...**

Don't ever do anything as though you were an amateur. Anything you do, do it as professional to professional standards. If you have the idea about anything you do that you just dabble in it, you will wind up in a dabble life. There will be no satisfaction in it because there will be no production in it that you can be proud of.

L. Ron Hubbard

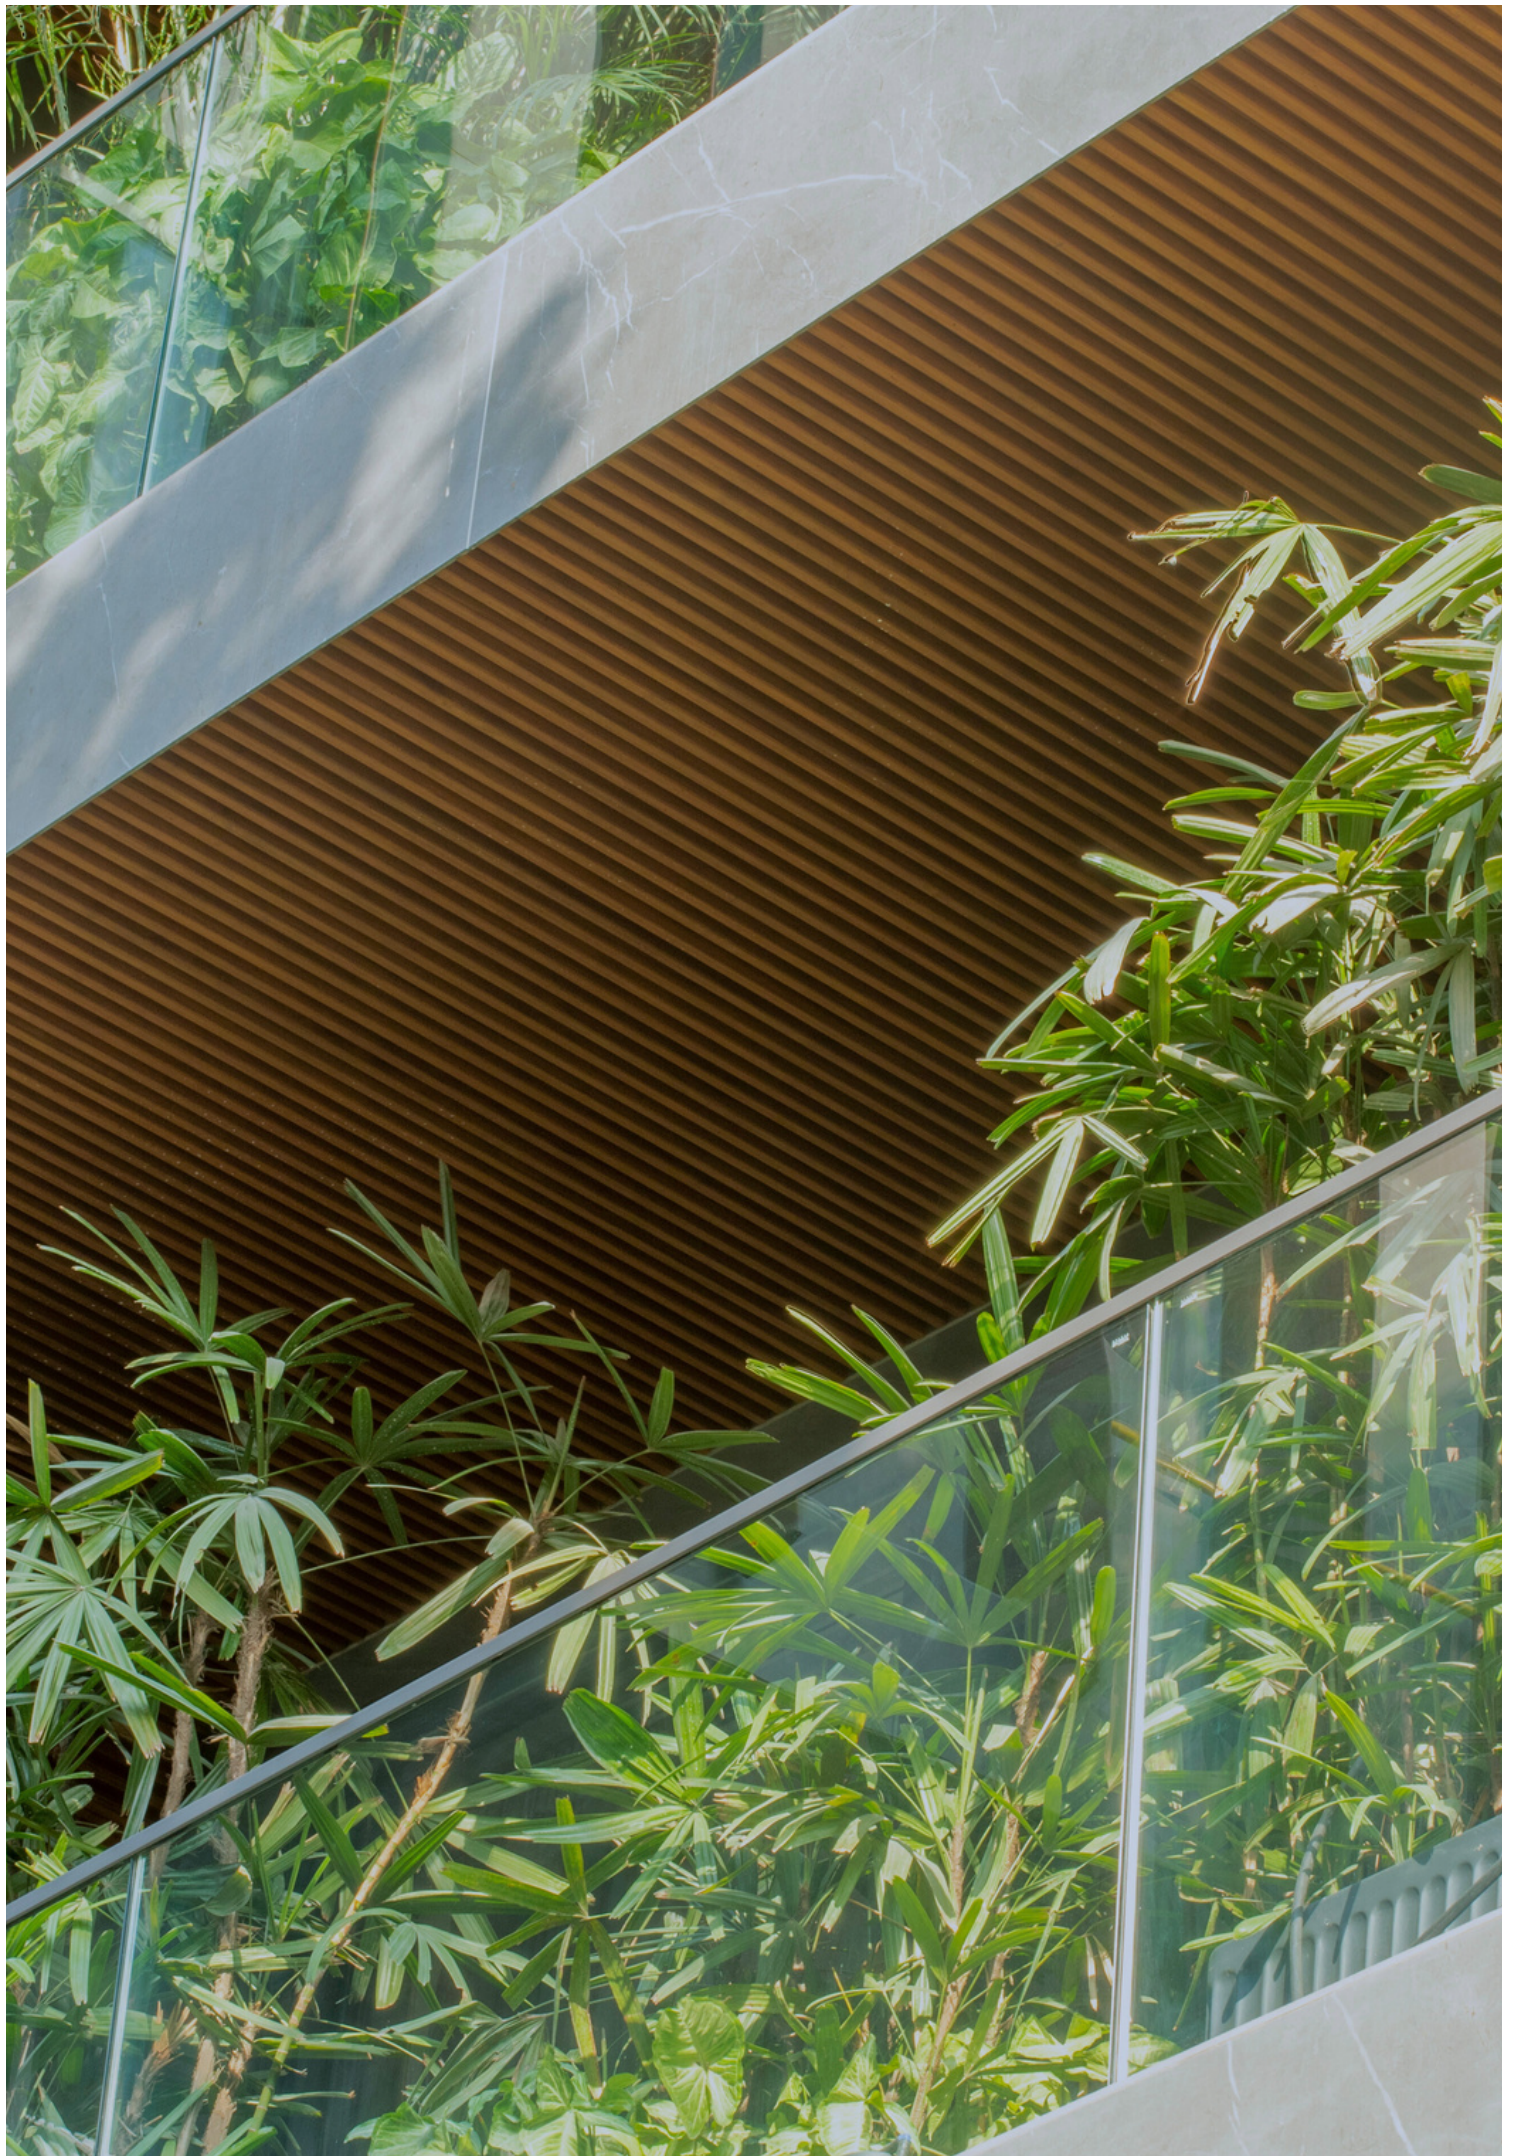

# INTERNATIONAL INSPIRATIONS

We take pride in the companies we work with. We bring you flooring, facades, and decking options from the most innovative manufacturers from all across the world.

Here, we illustrate some of our favourite international projects using the products we offer to get you inspired.

## Thai Masters

We bring you the following projects from a Thai Brand - Champaca.

They offer timeless yet contemporary solutions to your flooring needs. Their ingenuity has seen their floors installed in esteemed hotels such as the Kempinski in Phuket.

We are delighted to be able to provide you with products from such a professional and innovative company.

## Canadian Brilliance

We bring you the following projects from a Canadian Brand - Coswick.

With heavy-hitter projects under their belt, such as the Le Train Bleu Restaurant in Doha and a legendary project with the esteemed architect Zaha Hadid in Azerbaijan, there is no doubt that Coswick's products are as refined as they get.

We are proud to extend a nearly decade-long relationship with such a company. We are also delighted that we get to share their excellence with you in your architectural endeavours.

**Legendary Project with Zaha Hadid  
in Baku, Azerbaijan**

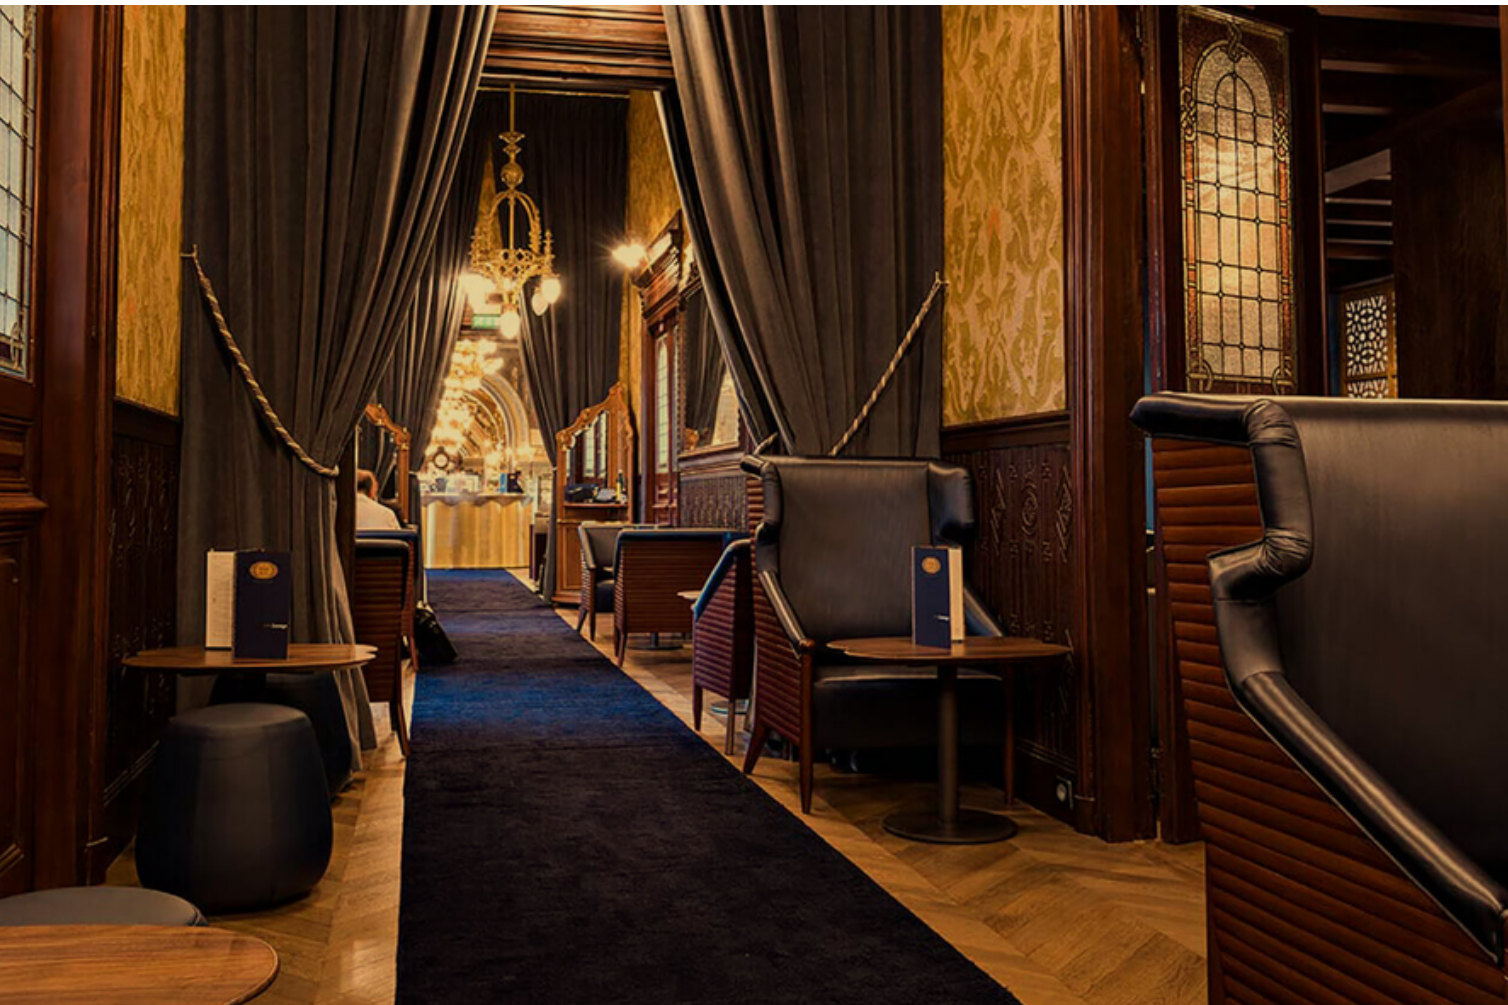

Le Train Bleu in Doha,  
Qatar

## Surreal beauty from New Zealand

We bring you the following projects from a Kiwi Brand- Abodo.

The serene beauty of New Zealand is captured in Abodo's products perfectly. With some of the most stable and aesthetically pleasing solutions in outdoor cladding and decking, there is no doubting Abodo's impact on the world's architectural scene.

We feel extremely lucky to extend a nearly decade-long relationship with them as well. Even more so, we are happy that we are able to share their excellent cladding and decking solutions with luxury homeowners and innovative designers such as yourself.

# Wood in Every Hue

That’s right, wood does not have to be just brown. We offer various shades, from light weathered grey to a beautiful charred black, so that you can experience something new with the familiar warmth of wood.

**We would love to be a part of  
your home too!**
